

Well-being, Independent Living, Safety
Why We Show Up. Why Everyone Should.

The Oklahoma nonprofit community shows up to enrich, transform, and save lives. We believe Oklahoma should be an inclusive place where adequate resources are available to assure that everyone can live in a safe, equitable and supportive community.

We envision a future where: Oklahomans are physically and mentally healthy; independent living is possible; creativity is encouraged; diversity, equity and inclusion are embraced, families are strong; and our children are nurtured and successful.

To make this vision a reality requires collaborative and interdependent investment by everyone. This engagement will drive economic growth, provide workforce readiness and sustain resilience in the face of challenge or adversity.

We urge all Oklahomans to do all they can to advance this vision by their words and actions now. We will engage civilly, and with respect for differing approaches aimed at serving the common good. We will listen and hear each other. All of us must show up united.

To build this bright future for Oklahomans, we promise to show up. We need everyone to show up. Wherever there is a need, we respond. Wherever there is a wrong, we seek justice. Wherever voices should be heard, we speak. Wherever there is a need for leadership, we provide it.

In small ways, big ways and always-let's show up for Oklahoma.
